THOMPSON TEMPLE

LAD SHUNNESON

L.V. HUBBARD

The Records of Exotics record book that Thompson Temple pioneered lists 10 animals that constitute the SUPER SLAM OF EXOTICS. They are the Fallow Deer, Aoudad, Red Stag, Corsican Sheep, Mouflon Sheep, Sika Deer, Ibex, Axis Deer, Blackbuck Antelope and Catalina Goat.

In "Hunting the Exotics: Part One," Ken Wilson, of Sportsmen on Film, hunts the first half of the SUPER SLAM and, with the help of some of the best exotic guides in the business (Lad Shunneson, L.V. Hubbard and Thompson Temple), he takes all gold medal trophies on-camera.

What do these animals look like, how do they act, what constitutes a good trophy, and how are they hunted? All of these questions are answered in detail in the context of five exciting hunts filmed over a period of three months.

In "Hunting the Exotics: Part Two," Ken Wilson completes the SUPER SLAM with the assistance of guides Finn Aagaard, Thompson Temple, Lad Shunneson, Bo Wafford, and Mark Cowden. Charlie Schreiner IV of the Y.O. Ranch discusses exotic hunting and ranching and professional hunter and writer Finn Aagaard discusses rifle calibers, bullet weights, and his thoughts on exotic hunting.

Approx. 58 Min.

HUNTING THE EXOTICS: PART ONE  
FALLOW, AOUDAD, STAG, CORSICAN, MOUFLON
