In **PART ONE**, Ken Wilson, of Sportsmen on Film, successfully hunted 5 of the 10 animals of the SUPER SLAM OF EXOTICS: Fallow Deer, Aoudad, Red Stag, Corsican Sheep, and Mouflon Sheep.

In **PART TWO**, Ken completes the SUPER SLAM by taking Sika Deer with Lad Shunneson, Ibex with Finn Aagaard, Catalina Goat with Mark Cowden, Axis Deer with Thompson Temple, and Blackbuck Antelope with Bo Wafford. Then he successfully hunts a second Catalina Goat and the Corsican shown below; both with Thompson Temple.

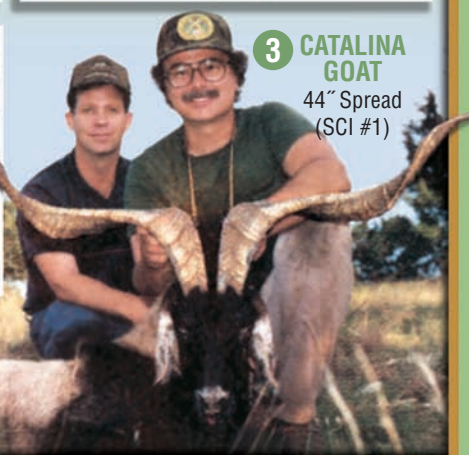

By viewing this video, you will be informed as to how these animals behave, what constitutes a good trophy, how to judge trophy quality, and how they are hunted. In addition, Thompson Temple describes what to look for when hunting for the record book; Finn Aagaard discusses rifle calibers and bullet weights; and Charlie Schreiner IV discusses exotic ranching and hunting.
