

HUNTING IN SPAIN

Your passport to travel, adventure, and hunting throughout Spain is hosted by LORRAINE WILSON of Sportsmen on Film.

Due to excellent game management programs, Spain is one of the great countries of the world to hunt. From the Pyrenees Mountains of the north to the Sierra Nevada of the south, from the Gredos Mountains of the west to the Beceite Reserve of the east ... a wide variety of big game can be hunted throughout Spain including four categories of Spanish Ibx, two sub-species of Chamois, plus Red Deer, Roe Deer, Fallow Deer, Mouflon Sheep, and Wild Boar.

Just as exciting, Spain offers the visiting sportsman a wide variety of travel and adventure opportunities.

To capture the excitement, Rick Morgan videotaped Ken and Lorraine Wilson hunting in the summer (with Eduardo F. de Araoz of CAZATUR/MUNDICAZA) and Wayne Pocius hunting in the fall (with CAZATUR/MUNDICAZA, CAZASPAIN, and HUNT TRIP) so you can experience the hunting of Ronda Ibx, Southeastern Ibx, Gredos Ibx, Red Stag, Mouflon Sheep and Pyrenean Chamois. You will also see a Monteria (driven hunt for Stag and Boar) and glimpses of San Sebastain, Barcelona, Madrid, Malaga, Marbella, Ronda, and Granada, plus the famous Running of the Bulls at Pamplona.

Special thanks to Ambassador Miguel de Aldasoro, Weatherby Award-Winner Valentine de Madariaga, and to Iberia Airlines.
